Dear Clients,

I am pleased to offer a \$225 fee for a non-interactive website which includes the first two years of domain registration (about \$30 for two years) and the first year of website maintenance (\$45 a year). This introductory offer won't last forever, so if you want that website up at a cheap cost, then send me the request. I will be happy to launch the website for you. Here is the pricing schedule:

Charge for building the website	\$225 for a simple website (First half (\$112.50) due up front, the second half (\$112.50) when website is up)
Charge for registering a domain name	About \$30 for two years (\$31.14 from godaddy.com) (First domain name registration charge due two (2) year after website is up. Each additional bill (yearly) due on the anniversary of the first bill.)
Charge for maintaining the website	\$45 per year for simple changes (First maintenance charge due one (1) year after website is up. Each additional bill (yearly) due one (1) year after the first bill is due.)

Sincerely,

Marc Menzel
